## Grand Opening of a New Multifunctional Sports and Children's Playground at Logport Prague West

**[Prague, October 27, 2024] – Logport is proud to announce the grand opening of a new multifunctional sports playground and children's playground at the Logport Prague West complex. The newly built sports infrastructure is designed to provide high-quality sports and recreational facilities for all age groups, contributing to the quality of life around the area.**

### **Sports Playground for All Generations**

The multifunctional sports playground features a modern surface and enables various sports activities, such as football, basketball, volleyball, and other team sports. The playground is open to both employees of companies within the complex and the wider public from nearby communities.

### **Children's Playground – A Place for Fun and Development**

The new children's playground offers a safe and inspiring space for children of all ages. It is equipped with modern play elements, such as climbing frames, slides, and swings, which encourage physical activity, creativity, and social interaction among children. The playground's design emphasizes safety, functionality, and aesthetics, making it an attractive place for families with children.

### **Community Benefits**

The opening of the multifunctional sports and children's playground at Logport Prague West marks another step by Logport towards fostering community life and promoting a healthy lifestyle. “Our goal is to create an environment that serves not only companies and their employees but also local residents. We aim to make Logport Prague West not only a logistics hub but also a place where people feel good and actively spend their free time,” says David Vais, CEO of Logport.

### **A Day Full of Experiences**

The opening day, held on Friday, November 22, 2024, offered a diverse program, including fun games for children and delicious refreshments. The event provided a great opportunity for connecting and building community relationships with local residents.

The new sports and children's playground is now open and ready for use by the general public. Logport looks forward to more joint activities that support a healthy lifestyle and the cohesion of the local community.

### **About Logport**

**Logport** is a developer of commercial properties with added value, focusing on the development of key urban infrastructure. The company creates commercial zones that integrate storage and production areas with office and retail spaces, providing an ideal environment for distribution centers, e-shops, pick-up points, transshipment centers, showrooms, and small- and medium-sized

businesses. The aim is not only to meet practical needs but also to harmonize with the urban environment. Thanks to its team of professionals, including architects, project managers, and construction and property management experts, Logport transforms unused land into attractive places for work and life.
